# San Luis Obispo County Community College District 

Final Budget 2020-2021

# San Luis Obispo County Community College District Vision, Mission, and Values 

## College Mission

Cuesta College is an inclusive institution that inspires a diverse student population to achieve their educational goals.

We effectively support students in their efforts to improve foundational skills, earn certificates or associate degrees, transfer to four-year institutions, and advance in the workforce.

Through innovative and challenging learning opportunities, Cuesta College enhances lives by promoting cultural, intellectual, personal, and professional growth. We prepare students to become engaged citizens in our increasingly complex communities and world.

## Vision

Cuesta College is dedicated to accessible, high-quality
education for the support and enhancement of student success, professional development, and the community we serve.

## Values

Access - Success - Excellence

## Annual Budget Process

The budget development process begins with the development of budget assumptions, which guide the allocation of resources. From February through April, budget assumptions are developed for the next Fiscal Year. The Planning and Budget Committee reviews budget assumptions in May to be used to develop the budget for the next Fiscal Year.

Information from a variety of sources is considered in the development of the budget including:

- Institutional Goals and Institutional Objectives;
- Priorities identified through the Institutional Program Planning and Review process;
- Mandates from external agencies; and
- Status of long-term obligations.

During early spring, Units identify and prioritize needs for staffing, facilities, services, and equipment. These unit-level requests for resources are submitted on the Annual Program Planning Worksheet as part of the Institutional Program Planning and Review process. High-priority needs will be funded at the unit level if possible. The Annual Program Planning Worksheets are combined at the Cluster level and are once again prioritized. High-priority needs will be funded at the Cluster level if possible. Beginning with the 2017-18 budget development process, the Planning and Budget Committee approved a process where the Superintendent/President and Vice Presidents identify budget priorities of an institution-wide nature.

The Planning and Budget Committee determines the number of one-time requests that each Cluster may present during the One-time Institutional Prioritization Process. All Clusters submit their list of unfunded, prioritized needs to the Planning and Budget Committee each March. In the Fall, the Planning and Budget Committee will recommend that unencumbered funds from the previous Fiscal Year be used to fund the prioritized list or recommend that the unencumbered funds be saved for contingencies.

The Planning and Budget Committee determines the number of requests that each Cluster may present for the Ongoing Institutional Prioritization Process. All Clusters submit their list of prioritized ongoing needs to the Planning and Budget Committee each March. In order to fund these ongoing requests, the Planning and Budget Committee may recommend that new funding sources be used (if available) or that the administration identify current funding sources in order to remain revenue neutral.

Cluster managers must submit technology-related requests for review to the Technology \& Web Committee. Technology requests are not treated separately from other ongoing or one-time requests in the prioritization process, but identifying technology needs is important as the State budget occasionally provides restricted funds that can be used to address technology needs.

All prioritized requests will be aggregated into a final Prioritized Institutional List to indicate relative needs for One-time and Ongoing requests.

The Planning and Budget Committee establishes the number of requests that each cluster may present during its meeting in March. After that time, Cluster managers are informed about the maximum number of requests to present. They will also be given a Prioritization Form to fill out for each request. This form will be used by the co-chairs to complete a Resource Allocation Rubric

COLLEGE
for each request. Using a 70-point scale, this rubric weighs each request based on the following criteria:

1. The contribution this proposal will make toward the achievement of Institutional Goals and/or Institutional Objectives;
2. An outcome based on the measurement of student learning outcomes or administrative services outcomes;
3. Data in the Institutional Program Planning and Review;
4. List of recommended priorities from each Unit and Cluster; and
5. Health or safety concerns;

Once this process is complete, Cluster managers will present a narrative to the Planning and Budget Committee for subjective ranking. The Planning and Budget Committee will receive the ranking generated from the co-chairs' use of the Resource Allocation Rubric on the Subjective Ranking Form. To determine the final order, the points from the Resource Allocation Rubric will be combined with the Subjective Ranking, with a slightly heavier weight placed on the Cluster ranking. The results of this process are presented to the Planning and Budget Committee on or before the following Planning and Budget Committee meeting. The process will be assessed annually.

The district's budget will:

- Be balanced
- State Aid will be reduced by $8 \%$ or $\$ 4,163,407$. State General Apportionment will be reduced to $\$ 0$ and the remaining amount will be taken from State Categorical Programs.
- Reflect the 2020-2021 State Budget
- Recognize any increase/decrease in state funding
- Increase in Base Allocation \$0
- Deferred Maintenance \& Instructional Equipment \$0
- Include an escrow account for predicted budget short/falls, i.e. property tax, RDA funding, student fees, restoration
- Part-Time Faculty Compensation \& Office Hours Funding reduced from \$207,813 to \$148,574
- Recognize a COLA of $0 \%$
- Recognize a deficit factor of $0.5 \%$
- Reflect any changes to the funding formula approved by the State
- Incorporate the assumptions of the Five-Year Budget Projections
- Carry over FY2019-2020 balances as recommended by the Planning and Budget Committee
- Recognize changes in ongoing -, 2000, and 3000 (salaries and benefits) due to Step, Column and other movement
- Recognize change in PERS rate from $19.721 \%$ to $20.70 \%$
- Recognize change in STRS rate from $17.13 \%$ to $16.15 \%$
- Recognize change in Worker's Compensation Insurance premium from $1.09 \%$ to $1.32 \%$
- Assume an inflationary factor of $1.0 \%$ for Operational Expenses (5000)
- Budget current ongoing district obligations that have not been previously budgeted
- Increase required level of match by the district for categorical programs when required
- Increase the district match for categorical programs by the proportionate amount of any salary increases approved for employee groups
- Budget for long-term obligations
- Recognize the annual payment for the separation incentive program
- Recognize any investment income from the PARS pension stabilization fund
- Recognize Legal, Financial and Statutory Requirements

The district will develop a budget that:

- maintains a reserve of at least a six percent ( $6 \%$ ) of unrestricted general fund expenditures;
- meets the fifty percent ( $50 \%$ ) law, i.e., at least $50 \%$ of the current expense of education is allocated to instructional salary and benefits;
- provides for staffing levels required by the Board of Governors in relation to Title 5, Chapter 4, Subchapter 3, Articles 1, 2, and 3 that maintain compliance with the Full-time Faculty Hiring Obligation Number; Fall 2019 was $56.3 \%$ FT to $43.7 \%$ PT;
- includes reasonable provisions to cover all known or projected liabilities to the district (e.g., accumulated vacation, sick leave, etc.); and
- meets all statutory and legally mandated income /expenditure requirements
- Comply with the Education Protection Account (EPA) requirements for Prop 55 funds designated for instructional salaries
- Not exceed appropriations limit as calculated on the Gann Limit Worksheet

## (As reviewed by the Planning and Budget Committee on 5/19/2020)

## The purpose of the district's budget is to provide:

- Students with a high-quality, learning-centered education
- The resources and support needed to deliver effective instruction
- The resources and support to facilitate the teaching-learning process
- The means to manage the district in an efficient and cost-effective way

The criteria listed below will be used in developing the budget:

- Institutional Goals and Objectives
- Institutional Achievement Standards
- Priorities identified through the Institutional Program Planning and Review process
- Mandates from external agencies
- Long-term obligations
- Learning Outcomes (student, institutional, administrative)
- Guiding Principles for Budget Reductions due to Budget Shortfall
- Legal, financial or statutory requirements
- Procedural Guidelines

## 1. Institutional Goals and Objectives \& Institutional Achievement Standards

The district provides direct links between resource allocations and planning:

- The Institutional Program Planning and Review process includes the requirement that units address how they contribute to the achievement of Institutional Goals and/or Institutional Objectives and Institutional Achievement Standards.
- Requests for funding are prioritized by the Planning and Budget Committee using a rubric that gives higher scores to proposals that will contribute to the achievement of the Institutional Goals and Institutional Objectives.
- The district has established an Institutional Objectives Account. These funds are allocated based on the extent to which the funding will contribute to the achievement of an Institutional Objective.

2. Priorities identified through the Institutional Program Planning and Review process

The Planning and Budget Committee uses the Resource Allocation Rubric to develop a recommendation of institutional priorities. The rubric weighs each request based on what extent the request is justified by:

- The contribution the proposed item will make toward the achievement of Institutional Goals and/or Institutional Objectives
- An outcome based on the measurement of learning outcomes (student, institutional, administrative)
- Data in the Institutional Program Planning and Review
- Health or safety concerns

3. Mandates from external agencies

The district will develop a budget that covers mandates from external agencies.

## 4. Long-term obligations

The district will develop a budget that covers long-term debt obligations.
6. Guiding Principles when addressing Budget Reductions due to Potential Budget Shortfalls (as adopted by Planning and Budget)

- Protect as much as possible of the core curriculum, programs and services needed to fulfill the mission for the district and California Community Colleges.
- Maintain student access and service throughout the district as much as possible.
- Reduce, combine, suspend, or eliminate services, programs, positions, or other costs farthest from students, instruction, and the support needed for student success.
- Stay flexible, plan for contingencies, and recognize that decisions at the state level may not be made in a timely manner, acknowledging that all units must work together as a college.
- Communicate civilly; gather facts, weigh options, listen, and deliberate together when difficult choices have to be made.
- Any plan would go through the governance process.

## 7. Legal, Financial and Statutory Requirements

The district will develop a budget that:

- Achieves and maintains a reserve of at least six percent ( $6 \%$ ) of unrestricted general fund expenditures
- Meets the fifty percent (50\%) law, i.e., at least $50 \%$ of the current expense of education is allocated to instructional salary and benefits
- Provides for staffing levels required by the Board of Governors in relation to Title 5, Chapter 4, Subchapter 3, Articles 1, 2, and 3 that maintain compliance with the Full-time Faculty Hiring Obligation Number.
- Includes reasonable provisions to cover all known or projected liabilities to the district (e.g., accumulated vacation, sick leave, etc.)
- Meets all statutory and legally mandated income/expenditure requirements.

## 8. Procedural Guidelines

The district will develop a budget that:

- Is balanced
- Is based on planning that reflects both current and long-term district needs
- Makes steady progress toward correcting actual or anticipated structural budget issues (e.g. declining revenue, rising costs, lack of ongoing dollars to cover ongoing expenses, etc.)
- Has had campus community involvement and consideration during preparation
- Includes all contractually negotiated costs and expenses
- Reflects the state's economy
- Includes all known and projected increases in fixed costs; identifies significant but unfunded items not included in the budget
- Highlights usual items and/or provides information on substantive changes from previous budgets
- Eliminates the structural deficit annually by projecting the trends of the increases to the 3000 account on a three-year basis, minimally, and including this projection as a budget assumption in the development of each year's annual budget. The rate of increase of the 3000s and the subsequent projected costs should be budgeted into each year's annual budget accordingly
- Considers restructuring any long-term debt to minimize annual fiscal impact.

## State Budget Overview

On May 14th, Governor Newsom released his May Revision. As much of the state's and nation's economy had been shut down since March due to the COVID-19 outbreak, it was not surprising to see that the state's fiscal condition had significantly worsened since the initial budget proposal in January. The numbers released by the Department of Finance (DOF) painted a dire picture: An economy expected to retract by $5 \%$ during 2020; a state unemployment rate projected to reach as high as $24.5 \%$; a decline of $9 \%$ in personal income. In many ways, these economic numbers were worse than what the state experienced during the Great Recession.

The negative economic factors had a corresponding impact on the state's revenues, according to DOF. Significant projected declines in income, sales, and corporate tax revenues would lead to an estimated reduction of $\$ 41$ billion in state revenues through the 2020-21 fiscal year. Combined with increased expenditures in health care and other areas related to the pandemic, the Governor identified the total budget problem at $\$ 54.1$ billion. Further, DOF expects the pandemic's impact on state finances will be a multiyear problem - the forecast projects state revenues even in 2023-24 to remain below the level of the 2018-19 budget. To address this problem, Governor Newsom proposed deep expenditure reductions across most areas of the budget, including education. The Governor, though, included a positive trigger that would restore specified funding to education and other areas should new federal stimulus funds be allocated to the state by October 1.

The Legislature preferred to take a very different approach. Rather than restore funds should federal stimulus materialize later in the year, they preferred to assume those funds in the initial budget. An initial agreement reached between the two houses would have funded increases for education, including a COLA, and a partial deferral of funding to 2021-22.

On June 22nd, the Governor and Legislature announced that they had bridged the gap between their two approaches and reached agreement on the 2020-21 Budget. While the Legislature didn't get the funding increases they had sought, the Governor agreed to ease back on immediate reductions and fund a relatively flat budget for K14 education that would be supported by massive deferrals into the 2021-22 fiscal year. If federal stimulus materializes, a portion of the deferrals would be rolled back. Thus, the two sides compromised on total funding, the Governor got his way on the trigger approach, and the Legislature managed to preserve certain programs through deferred payments.

The key question raised by the budget agreement is whether or not the economy can support its assumptions. The state is working with incomplete economic data in a volatile economic period. It's not clear that there will be another round of federal stimulus or that it will be substantial and flexible enough to help the state. Also, the depth and duration of the pandemic remains unknown. While some businesses have begun to reopen or reopen partially, the state continues to see significant new COVID-19 cases and hospitalizations, making a return to normal unlikely in the near term. It's possible that an economic recovery from the depths of March and April may not come as rapidly as hoped. If the recovery is slower than what was anticipated by lawmakers in June, there may be a need to revise the Budget during the year. For these reasons, the district should budget cautiously.

## Education Funding

The final state budget included winners in some areas relative to the Governor's May Revision, but also some losers. Included among the losers were UC and CSU, who are being reduced by a combined $\$ 970$ million in 2020-21. There is legislative intent to restore some or all of these funds should Federal stimulus be authorized, but those segments will need to tighten their belts to make up the difference in the meantime.

The 2020-21 Proposition 98 minimum guarantee saw a dramatic drop from an estimated $\$ 84$ billion as of January to $\$ 70.5$ billion in the final budget. Given losses of this magnitude, one would normally expect more direct reductions to be enacted in the budget, but the Legislature insisted on utilizing deferrals in lieu of direct reductions.

For community colleges, the year-over-year budget includes very few changes, but it does come with some significant risks. Key features include:

- No funding for a COLA or growth
- Extends the SCFF hold harmless by two years through the 2023-24 fiscal year
- Calbright College's ongoing budget was reduced by $\$ 5$ million, and it also lost $\$ 40$ million in one-time funding
- Provides $\$ 10$ million for immigrant legal services
- Provides $\$ 120$ million in one-time resources for a block grant intended to support local responses to COVID-19 related student, educational, and technology needs
- Reduces anticipated employer contribution costs to CalPERS and CalSTRS by approximately $2 \%$ each for the 2020-21 and 2021-22 fiscal years
- Adjusts the $50 \%$ Law to accommodate expenditures related to COVID-19
- Limits the ability of districts to layoff personnel within certain classifications

As noted, the agreement avoids immediate reductions through a major deferral of funding payments into subsequent budget years. Community Colleges will have \$332 million deferred from 2019-20 to 2020-21, and $\$ 1.453$ billion deferred from 2020-21 until 2021-22. Normally, state deferrals only involve the general apportionment, but these figures are so large that the Chancellor's Office must look to categorical programs to meet the deferral target. The district will have $\$ 2.5$ million (out of $\$ 2.7$ million) of the Student Equity and Achievement Program (SEA) deferred until 2021-22. If Federal stimulus materializes, as much as $\$ 791.1$ million of the deferral would be paid down.

## Challenges Ahead

With so much uncertainty clouding the horizon, the district will need to budget cautiously. While revenues for 2020-21 are essentially flat - a much better outcome than Governor Newsom proposed at the May Revision - the state revenue picture remains troubling. Indeed, the state budget is based on deferring funds into a future year that may be no better than 2020-21. Given the Department of Finance's forecast that revenues will not fully recover to prior levels for several years, it is possible that colleges will not see COLAs or other significant funding increases in the near future. If state funding remains flat (or decreases), the district could fall into basic aid status in the near future.

To maintain balanced budgets, the district will need to consider the following:

- Restrain expenditures and explore alternative revenues beyond state resources
- Manage enrollment
- Monitor cash to handle deferrals
- Be prepared for the spike in pension costs in 2022-23 once the state's mitigation ends
- Be prepared for revenue losses related to online instruction (e.g., lost parking fees)
- Provide COVID-19-related supplies, including masks, sanitizer, and cleaning supplies
- Maintain prudent reserves and contingency funds
- Account for increases in technology costs and other service needs

## District Revenue and the Student-Centered Funding Formula

Apportionment is the district's primary source of General Fund revenue. Through the 2017-18 fiscal year, community colleges were funded under what was known as the SB 361 model. Each district received a base allocation grant for each college (amounts vary depending on the number of FTES) and state-approved centers within the district, but generated the majority of its general apportionment through the amount of FTES served (one rate for credit and enhanced noncredit and a lower rate for noncredit instruction). Since colleges earned additional funding primarily through increasing FTES, SB 361 was considered a growth model.

The 2018 Budget Act and corresponding trailer legislation enacted the Student-Centered Funding Formula (SCFF). The SCFF moves colleges away from a pure growth model to one based more on performance and student demographics. Under the SCFF, only $70 \%$ of the system's general apportionment funding will be based on FTES, with $10 \%$ based on various student success metrics (e.g., number of degree completions, transfers, certificates, first year completion of transfer-level math and English courses, etc.) and 20\% for a supplemental grant based on the number of disadvantaged students (Pell grant recipients, Promise grant recipients, and AB 540 students). Certain FTES (non-credit/CDCP, special admits, incarcerated) are excluded from the SCFF calculation and are funded as they were under the SB 361 model. Another notable difference from the SB 361 model is that funded FTES is calculated on a three-year average. Through the 2023-24 academic year, the state guarantees a transitional "hold harmless" period, which means that no district will be funded at less than its 2017-18 level of revenues as adjusted by the COLAs over that time. The district is projecting to be in hold harmless through 2023-24.

The SCFF presents challenges for the district. Firstly, the district's proportion of populations funded in the supplemental allocation are lower than the state average, so this allocation is not favorable to the district. Secondly, calculating FTES on a three-year average limits the benefit of summer shift. Thirdly, the long-term stability provision in the formula (once the hold harmless period ends) provides the previous year's revenue to the district unadjusted by COLA. The previous stability provision provided funds based on prior-year FTES adjusted by the current year COLA, so this is a significant change. Taking the latter two points together, it makes much less sense for the district to continue the practice of aggressive summer shifting.

State apportionment is made up of property taxes, enrollment fees, Education Protection Account (Prop 55) and general apportionment. The structure of the district's 2020-2021 general apportionment of approximately $\$ 51.6$ million is as follows:

$$
\begin{array}{rr}
\$ 45.8 \text { million Property tax (primarily paid in December and April) } & 88.8 \% \\
3.7 \text { million Enrollment fees } & 7.0 \% \\
1.6 \text { million Education Protection Account (paid quarterly) } & 3.1 \% \\
0.5 \text { million General Apportionment (paid per a monthly schedule) } & 1.1 \% \\
\mathbf{\$ 5 1 . 6} \text { million } & \mathbf{1 0 0 . 0 0 \%}
\end{array}
$$

The chart on the next page shows the number of FTES earned each academic year.

## Full Time Equivalent Students (FTES) Actual Without Borrowing

09/28/20

The chart below shows the number of full-time equivalent students (FTES) as reported to the Chancellor's Office. The district has been able to report FTES for credit summer courses that start in one fiscal year but end in the following fiscal year in the fiscal year of our choice. The old stability provisions provided that, if the district declined in a fiscal year, the district would be funded at the prior year level of FTES for one year as adjusted by the current year COLA.

The FTES figures under the SCFF is calculated on a three-year average (current year, prior year, and the year prior to that). As noted earlier, the three-year average reduces the benefit of shifting summer FTES as there is always at least one down year in the calculation. For the 2020-21 fiscal year, the district projects to be in hold harmless status. This means Cuesta College will be funded at least the same amount it was funded in 2017-18 as adjusted by the COLAs funded in the 2018-19 through 2020-21 years. So, while our reported FTES in 2020-21 won't change the amount of apportionment received one way or another, strong FTES may benefit the district in future years due to the three-year average calculation.

This chart shows the number of funded FTES for recent years through 2020-21.

## Full Time Equivalent Students (FTES) Funded FTES

Each year the district sets the FTES targets for a five-year period. The Vice President of Administrative Services, Vice President of Academic Affairs, Vice President of Student Services and the Dean of Institutional Research constitute a workgroup that convenes to review, revise as needed, and recommend five-year FTES targets. The five-year period includes the current year and four additional years aligned with the five-year budget projections.

The district expects to be in hold harmless through the 2023-2024 fiscal year, thus our funding will be based on our 2017-2018 level of FTES. In subsequent years, funded FTES will be calculated based on a three-year rolling average. The district projects to lose about 260 FTES as a result of the three-year average calculation starting in 2024-2025.

The charts below show the FTES targets that were developed in Spring 2020.

| Total FTES Targets <br> Developed Spring 2020 |  |  |  |  |  |  |
| :---: | ---: | ---: | ---: | ---: | ---: | :---: |
| Year | Leading <br> Summer | Fall | Spring | Trailing <br> Summer | Total <br> FTES |  |
| $2018-19$ | 219 | 3,761 | 3,392 | 8 | 7,380 |  |
| $2019-20$ | 723 | 3,827 | 3,476 | 65 | 8,091 |  |
| $2020-21$ | 759 | 3,883 | 3,457 | 8 | 8,107 |  |
| $2021-22$ | 775 | 4,053 | 3,472 | 8 | 8,308 |  |
| $2022-23$ | 782 | 4,124 | 3,514 | 8 | 8,427 |  |
| $2023-24$ | 789 | 4,196 | 3,555 | 8 | 8,548 |  |

The Student-Centered Funding Formula applies to traditional credit FTES only. Noncredit, special admits, incarcerated students, and Career Development \& College Preparation FTES are funded as they were under the old model. Therefore, projections were developed for each of those categories. The charts below show the total FTES targets for each category.

| Traditional Credit FTES Targets <br> Developed Spring 2020 |  |  |  |  |  |  |
| :---: | ---: | ---: | ---: | ---: | ---: | :---: |
| Year | Leading <br> Summer | Fall | Spring | Trailing <br> Summer | Total <br> FTES |  |
| $2018-19$ | 1 | 3,069 | 2,936 | 8 | 6,014 |  |
| $2019-20$ | 467 | 3,075 | 2,936 | 8 | 6,486 |  |
| $2020-21$ | 480 | 3,227 | 2,995 | 8 | 6,710 |  |
| $2021-22$ | 470 | 3,259 | 3,025 | 8 | 6,762 |  |
| $2022-23$ | 470 | 3,292 | 3,056 | 8 | 6,825 |  |
| $2023-24$ | 470 | 3,325 | 3,086 | 8 | 6,889 |  |

## REVENUE

The district's unrestricted general fund revenues for 2020-2021 are estimated at $\$ 58.3$ million. Approximately $88.5 \%$ of the district's total revenue is directly from apportionment. The remaining $11.5 \%$ is from other sources (such as state lottery, interest, community program revenues, etc.), many of which are also based on FTES.

The chart below depicts the district's unrestricted general fund revenues for 2020-2021:

## Gifts Received from the Cuesta College Foundation

The Cuesta College Foundation provides essential financial support for the college's programs, services, scholarships, and capital campaigns.

The chart below depicts the gifts the college received from of the Cuesta College Foundation.

## EXPENDITURES

This budget incorporates the Budget Assumptions and the district's long-term obligations. As detailed in the chart below, $85.7 \%$ of the district's expenditures is committed to employee salaries and benefits.

The chart below depicts the district's general fund unrestricted expenditures for 2020-2021:

## CalPERS and CalSTRS

Among the most significant fiscal challenges the district has faced in recent years is absorbing the increased costs of CalPERS and CalSTRS contribution rates. In 2013-14, the PERS contribution rate was $11.44 \%$ and the STRS contribution rate was $8.25 \%$. By 2024-25, these rates will grow to $26.5 \%$ and $19.1 \%$, respectively, with further increases for CalPERS anticipated in subsequent years. From 2020-21 through 2024-25, we project increased costs of $\$ 1,228,209$ attributable to these rate increases. With modest COLAs and FTES growth projected over this time period, the district will need to budget carefully to fund these costs.

## CalSTRS

The 2014-15 State budget approved annual increases to the CalSTRS employer rates from 2014-15 to 2020-21. After 2020-21, statute allows for annual adjustments up to $1 \%$.

As referenced in the State Update section, the state is reducing employer contributions by approximately $2 \%$ in each of the 2020-21 and 2021-22 fiscal years to help districts manage difficult fiscal times. The district's required contribution to CalSTRS will be 16.15\% for 2020-21 and 202122, but we will face higher costs in subsequent years.

| PROJECTED INCREASES IN STRS EMPLOYER CONTRIBUTIONS <br> (Assumes no increases in salaries) |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2020-21 | 2021-22 | 2022-23 | 2023-24 | 2024-25 |

| 2.95\% |  |  | \$546,584 | \$546,584 | \$546,584 |
| 0.00\% |  |  |  | \$0 | \$0 |
| $\begin{array}{r} 0.00 \% \\ 913423 \end{array}$ |  |  |  |  | \$0 |
| TOTAL | -\$176,019 | -\$176,019 | \$370,565 | \$370,565 | \$370,565 |

## CalPERS

Each June, the California Public Employees' Retirement System (CalPERS) Board meets to review the pool actuarial study to set the employer paid rates for the following fiscal year. For fiscal year 2020-21, the employer contribution rate was set to increase from $19.721 \%$ to $22.68 \%$.

Similar to the treatment of CalSTRS, the state is reducing the employer contributions by approximately $2 \%$ for the next two fiscal years, so the district's required contribution will be $20.7 \%$ in 2020-21 and $22.6 \%$ in 2021-22. CalPERS provides estimated increases in future employer contribution rates over a five-year phase-in period. The chart below shows the estimated percentage increases and the corresponding fiscal impact of the increases to the district.

| PROJECTED INCREASES IN PERS EMPLOYER CONTRIBUTIONS <br> (Assumes no increases in salaries) |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2020-21 | 2021-22 | 2022-23 | 2023-24 | 2024-25 |

## 2020-2021 DISTRICT RESOURCE ALLOCATION PRIORITIES

The Planning and Budget Committee completes the prioritization and forwards the list to the Superintendent/President's Cabinet. After review, Cabinet prioritizes the items to be funded based on fund availability. After consideration of input from Cabinet, the Superintendent/President makes the final funding determination. This process is described in more detail in the Annual Budget Process section.

## LONG-TERM OBLIGATIONS

This Final Budget includes the following long-term obligations:

## Compensated Absences (Vacation)

This expense has been brought under control by requiring staff to stay within the vacation limit each year. The average total payout of excess vacation hours in recent years has been under $\$ 20,000$.

## OPEB (medical)

The district has a total OPEB liability of $\$ 1,681,641$ as measured by an actuarial study as of June 30, 2019. The liability is updated each fiscal year to reflect the annual actuarial study.

## Load Banking

Full-time faculty may bank work hours that are in addition to the faculty member's regular assignment in lieu of compensation for additional work in order to accumulate paid time off in a subsequent academic semester or semesters. No more than the equivalent of two semesters of the faculty member's regular workload may be banked and banked hours may be retained for a maximum of three years. Load banking is not carried as a general fund liability (per our auditors) and any expenses arising from the use of Load Banking are absorbed into that year's budget.

## STRS and PERS

New accounting criteria issued by the Governmental Accounting Standards Board significantly changes the reporting of public pension liabilities for community colleges. Both the STRS and PERS pension plans are underfunded. The new standard requires the district to report a liability for its proportionate share of the net pension liability. As of June 30, 2019, the district's share of the net pension liability was $\$ 65,343,367$. This liability is recorded on the district-wide consolidated financial statements and does not impact the general fund.

## PARS Supplemental Retirement Plan

The district sponsored a one-time Supplemental Retirement Plan for full-time faculty who were employed by the district as of January 10, 2018. The district will fund the supplemental benefits with five annual contributions of $\$ 220,786$ each. The final contribution is due in July 2022.

## Multi-Year Projections

The five-year district budget projections assume changes related to the new funding formula but do not otherwise assume significant changes at the state or local level. Future changes to revenues or expenditures would alter the projections and impact the net ending balance. For example, these projections do not make any assumptions about future negotiations with employee groups. Any negotiated compensation agreements will increase expenditures and reduce projected ending balances. Assumptions for the 2020-21 budget differ from the assumptions that the Planning \& Budget Committee reviewed in May to reflect what was adopted in the final state budget. The key assumptions over the projection period include:

- Assumes hold harmless SCFF funding until the district achieves basic aid status
- Annual property tax increases of $3.5 \%$
- 0\% COLAs
- Annual increases of $\$ 250,000$ in salary costs for step/column/longevity increases
- Annual increase in other operating expenses of $1 \%$ (contracts, etc.)
- No assumption of one-time unrestricted funding (e.g., mandate reimbursement)

The following adjustments are made for the 2020-21 Budget to eliminate potential deficits and shield the district from economic uncertainties:

- $\$ 737,693$ in faculty savings from frozen vacant positions
- $\$ 787,368$ in classified/management savings from frozen vacant positions
- $\$ 1,000,000$ in faculty/management/classified salary savings from the Separation Agreement and other vacancies that arise during the year
- $\$ 350,000$ in hourly worker savings
- $\$ 150,000$ in supply budget cuts
- $\$ 195,260$ in travel budget cuts
- $\$ 50,000$ cut to advertising budget
- $\$ 175,000$ reduction in annual transfer from General Fund to Scheduled Maintenance
- $\$ 175,000$ for the 2020-21 Separation Incentive Plan one-time payments
- Adjustments were made to cafeteria commissions, facility use revenue, bus pass sales and South County lease payment due to the impacts of COVID 19

The district's projected required reserve for 2020-21, based on BP 6200 , is $\$ 3,377,906$. The projected contingency is $\$ 6,814,322$ and the PARS post-retirement benefits trust is $\$ 3,594,208$. In addition to the reserve and contingency, $\$ 800,000$ was budgeted for COVID 19 contingencies. Total reserve and contingencies equal $19.5 \%$ of expenditures. Total reserves, contingencies and the PARS post-retirement benefits trust totals $25.9 \%$ of expenditures. Much of the contingency accumulated over time can be attributed to the significant amounts of one-time unrestricted funds the district has received in recent years. From 2014-15 through 2017-18, the district received over $\$ 5.2$ million in one-time funds, with over $\$ 3.9$ million of that coming in 2015-16. The contingency also grows in the Final Budget due to the reductions referenced above. The district is planning cautiously given the uncertainty over the economic recession and volatile state budget situation.

## MULTI-YEAR BUDGET PROJECTIONS UNRESTRICTED GENERAL FUND

## CALIFORNIA COMMUNITY COLLEGES <br> GANN LIMIT WORKSHEET

Fiscal Year 2020-21

DISTRICT:

## San Luis Obispo

DATE:
May 29, 2020

2020-21 Appropriations Limit:
A. 2019-20 Appropriations Limit
\$
78,157,802
1.0373
$\begin{array}{r}7,388.5500 \\ \hline 8,015.1000 \\ \hline 1.0848 \\ \hline\end{array}$
3 2020-21 Population change factor (line C.2. divided by line C.1.)
D. 2019-20 Limit adjusted by inflation and population factors
(line A multiplied by line B and line C.3.)
E. Adjustments to increase limit:

1 Transfers in of financial responsibility
2 Temporary voter approved increases
3 Total adjustments - increase

C. Population factor:

| 1 2018-19 Second Period Actual FTES | $7,388.5500$ |  |
| :--- | :--- | ---: |
| 2 | 2019-20 Second Period Actual FTES | $8,015.1000$ |
|  | 2020-21 Population change factor | 1.0848 |

$\qquad$
F. Adjustments to decrease limit:

1 Transfers out of financial responsibility
2 Temporary voter approved increases
3 Total adjustments - decrease
G. 2020-21 Appropriations Limit

II. 2020-21 Appropriations Subject to Limit:
A. State Aid ${ }^{1}$
B. State Subventions ${ }^{2}$
C. Local Property taxes
D. Estimated excess Debt Service taxes
E. Estimated Parcel taxes, Square Foot taxes, etc.
F. Interest on proceeds of taxes

## OTHER FUND BUDGETS

## DEBT SERVICE FUNDS

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Debt Service Funds should be used if current financial resources are being accumulated for principal and interest payments on general long-term liabilities that will mature in future years.

The district has the following Debt Service Fund:
GO Bond Interest and Redemption Fund

## GO Bond Interest and Redemption Fund

The district passed a $\$ 275$ million General Obligation bond in November 2014. Debt payments will be made from this fund. The San Luis Obispo Tax Assessor will collect $\$ 19.25$ per $\$ 100,000$ of assessed value from property owners. The revenue collected will be deposited into this fund and annual debt payments will be made from this fund.

## SPECIAL REVENUE FUNDS

Special Revenue Funds account for the proceeds of special revenue sources whose expenditures are legally restricted. Special Revenue Funds encompass activities not directly related to the educational program of the college, but provide a service to students (such as the Children's Center). Such activities may provide non-classroom or laboratory experience for students and incidentally create goods or services that may be sold. In the process of creating the incidental goods or services, expenditures are incurred in addition to those necessary solely for the educational benefits of students. These expenditures are charged against revenue received as a direct result of the operations. Other instructional expenses are accounted for as part of the General Fund.

The district has the following Special Revenue Funds:

## Children's Center Funds

## CHILDREN'S CENTER FUND

The district maintains a licensed Children's Center on both the San Luis Obispo and North County sites. The San Luis Obispo Children's Center has two preschool classrooms and one toddler classroom. The North County Children's Center has one preschool classroom and one toddler classroom. The centers are used as a laboratory by students studying Early Childhood Education. The Children's Center provides childcare services for Cuesta College students to allow them to pursue their educational goals. The Children's Center is self-funded and does not require General Fund assistance.

## CAPTIAL PROJECTS FUNDS

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and other capital projects (other than those financed by proprietary and fiduciary funds). Resources accumulated for future acquisitions or construction of capital projects are recorded in this fund.

The district has the following Capital Projects Funds:

## Capital Projects Fund

## 2014 General Obligation Bond Project Fund

## CAPITAL PROJECTS FUND

The Capital Projects Fund is used to account for the accumulation and expenditure of monies for the acquisition or construction of significant capital outlay items and Scheduled Maintenance projects that are not funded by State grants or construction bonds. The budget includes a transfer of $\$ 200,000$ from the General Fund to fund non-reimbursable capital projects.

The district passed a $\$ 275$ million general obligation bond in November 2014. The bonds will be issued in four separate series over a twelve-year period. The first series of bonds ( $\$ 75$ million) was issued in March 2015. The second series of bonds ( $\$ 73$ million) was issued in February 2018. The proceeds from these issuances have been deposited into this fund. The district plans to issue the third series of bonds of $\$ 65$ million in early 2021.

## INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by one department or organizational unit to other units on a cost-reimbursement. While the use of Internal Service Funds is not required under GAAP, they may be useful to identify and manage costs associated with particular services (e.g., self-insurance programs, duplicating and printing services, data processing, purchasing, motor pools, and central stores) and allocating such costs to user departments. By using the full accrual basis of accounting and flow of economic resources measurement focus, they can measure and recover the full cost, including depreciation of fixed assets, of providing goods and services.

The district has the following Internal Service Funds:

## Property and Liability Self Insurance Fund

## Dental Self Insurance Fund

Vision Self Insurance Fund

## PROPERTY AND LIABILITY FUND

The district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The district contracts with the Bay Area Community College District Joint Powers Authority for property and liability insurance coverage. There is a district cost of a $\$ 10,000$ deductible per claim. Settlement claims have not exceeded this commercial coverage in any of the past three years.

## DENTAL SELF-INSURANCE FUND

The district's dental benefits are contracted with the California Schools Dental Coalition, a Joint Powers Authority (JPA). Employee dental deductions are deposited into this fund. The JPA charges the district an estimated monthly amount for claims. The JPA processes the dental claims and future monthly charges are adjusted based on claim history.

## TRUST FUNDS

Trust funds are used to account for assets held on behalf of another party in which the district has some discretionary authority for decision making or responsibility for approving expenditures.

Trust funds are appropriate when one or more of the following conditions are present:

- There is an agreement granting the district discretionary authority.
- There are contractual or regulatory conditions restricting the use of the funds or requiring the district to exercise a management role or report the results of operations in its financial statements.
- There is a compelling reason to measure operations (revenues, expenditures/expenses, and fund balance) and report the results in the district's financial statements. Examples of compelling reasons may include the materiality of the revenues and expenditures/expenses, or the usefulness of the information to the readers of the financial statements.

The district has the following Trust Funds:

# Associated Students of Cuesta College Trust Fund 

Student Representation Fee Trust Fund
Student Center Fee Trust Fund
Student Financial Aid Trust Fund
Scholarship and Loan Trust Fund
PARS Post-Employment Benefits Trust Fund
Co-Curricular Trust Fund

## ASSOCIATED STUDENTS OF CUESTA COLLEGE TRUST FUND

The Associated Students of Cuesta College (ASCC) operates as an Associated Students Trust Fund of the District, as provided in Section 7665 of the Education Code. The program is managed by the Coordinator of Student Development and Activities and the Vice President of Student Services. ASCC has its own constitution and bylaws. Student funds are managed in accordance with district procedures. Student representatives decide how funds are to be used for the benefit of the students of Cuesta College.

The Associated Students of Cuesta College generate funds through an association fee of $\$ 10$ per student, per semester. Additional funds are raised through cafeteria commissions, interest income, and other fundraising activities. The ASCC budget serves as support for campus programs: athletics, performing and fine arts, child care, tutorial, transportation, job placement services, the student newspaper, book loans, and grants.

## STUDENT REPRESENTATION TRUST FUND

A vote of the students authorized the collection of a mandatory \$2 Student Representation Fee from every credit student each term. Uses of the funds include advocacy training, meeting with other student leaders and elected officials, and necessary supplies to support students in their advocacy and lobbying efforts.

## STUDENT CENTER FEE TRUST FUND

Students voted in 1990 to authorize the collection of a Student Center Fee to build a student center. The fee is $\$ 1$ per unit up to $\$ 10$ maximum per year. Initially, the fees were used to make payments on the debt issued to construct the student center. As of 2017, the debt has been fully repaid and fees collected will now be used for repairs and improvements to the building.

## SCHOLARSHIP AND LOAN TRUST FUND

The Scholarship and Loan Trust Fund is used to account for gifts, donations, bequests, and other devices which are to be used for scholarships or for grants in aid and loans to students. Scholarship accounts are set up with the Cuesta College Foundation, awarded through Financial Aid, and processed to students through this fund. Educational loans are also passed through this fund to students.

## PARS Post-Employment Benefits Trust Fund

The PARS Post-Employment Benefits Trust Fund is used to account for funds set aside in an irrevocable trust for offsetting the impacts of the rising PERS and STRS employer benefits costs. In December 2017, the Board of Trustees approved a resolution authorizing participation in the trust. The district made an initial investment of $\$ 3$ million into the Vanguard Conservative Fund. The district has the option of making additional investments as funds become available.

## AGENCY FUNDS

Agency funds differ from trust funds in the degree of discretion that may be exercised. In agency funds, the agreement or instrument allows the district or college little or no discretion. As a result, agency funds are purely custodial in nature (i.e., assets equal liabilities; no fund equity exists). Agency funds are appropriate when all of the following conditions are present:

- There is an agreement granting the district little or no discretionary authority.
- There are no contractual or regulatory conditions restricting the use of the funds or requiring the district to exercise a management role or report the results of operations in its financial statements.
- There is no compelling reason to measure operations (revenues, expenditures/expenses, and fund balance) and report the results in the district's financial statements. Examples of compelling reasons may include the materiality of the revenues and expenditures/expenses, or the usefulness of the information to the readers of the financial statements.

The district has the following Agency Funds:

## Student Clubs Agency Fund

## STUDENT CLUBS AGENCY FUND

The Student Clubs Agency Fund is used to account for student clubs. Student clubs are approved by the Associated Students of Cuesta College and have a faculty advisor.
